

Damian Johnson

1224 Cedar Branch Dr

Hello. I am excited to announce I will be running for a seat on the board of our Bozman Farms HOA. Many of you know my wife, Tonya, and I from owning a bounce house rental business. We've been honored to provide bounce houses, tables, chairs, and more for events and parties to many of you. You may know us for soliciting donations for various charity drives to help feed, clothe, collect toiletries, and launder clothes for our homeless friends in South Dallas. You may also know us for throwing a huge block party in September, where we invite 300-400 of our closest friends and neighbors over to our house for potluck and lots of family fun.

Over the past 15.5 years of living here in Bozman Farms, I could not imagine a better neighborhood to live in. I've built lifelong relationships with many people here. We've had heart to heart conversations together. We've checked on each other's families, watched each other's homes. We've traveled together. Served the community together and have had good old-fashioned fellowship on a regular basis. When our family and friends visit our home and meet our neighbors, they are blown away by how close our neighborhood is. I want to make sure we continue to build on that. I want to make sure we are fiscally responsible in our spending as well. I also want to make sure we're very conscientious about balancing a beautifully landscaped community with many amenities and creating a reserve fund that allows us to absorb expenses without increasing our HOA dues at the maximum levels.

Owning a business here locally for over 14 years has provided me with several tools and hands on experience to be an asset to our HOA board. Managing people, communicating with customers, creating long term and short-term goals, working with schools, HOA's, cities, churches, and more are all qualifications I can bring to the table. I have my opinions but am always eager and available to listen and understand different points of views. I'm an effective communicator. I am great at working with others, as well. I've been blessed to sit on the board of a nonprofit boys' home and have been an advisor to two 501c3 organizations. I've organized and created diversity events in Wylie. I am in the process of helping to formalize a diversity committee to help educate and bring awareness to different types of people through events, town halls, and community service.

My goals for our HOA are to provide transparency between the board and our community. Continue to bring our neighbors together through wholesome family friendly events. Make sure we continue to have an inviting community that's welcoming to new families interested in moving to here to Bozman Farms.

My passion is serving others. Allow me to serve you.
